*See Enbridge website for full details www.enbridgesmartsavings.com

*Homeowner responsible for cost of energy assessment, plus HST at time of the assessment.
\$550 is rebated back to you when you qualify.

NEW REBATE CRITERIA May 1, 2019

— UP TO —
\$5,000

AVAILABLE IN REBATES

rg
www.emair.ca

Attic Insulation

\$500
Increase attic insulation from R35 or less to at least R60

\$500
Increase cathedral/flat roof insulation by at least R14

Min. 20% of total ceiling area upgraded
Rebates pro-rated based on the total ceiling area % upgraded

Wall Insulation

\$1,500
Add at least R9 to 100% of building to achieve a minimum of R12

\$1,000
Add at least R3.8 to 100% of building to achieve a minimum of R12

\$2,000
Add at least R20 to 100% of building

Rebates are pro-rated based on the total wall area % upgraded

Homes Exempt from the R12 Wall Insulation Minimum:

- Pertains to homes where the wall cavity structure is less than 2x4, thus wall cavity is insufficient to allow for an R12 upgrade (double or triple brick homes)
- During initial assessment, REA is to advise homeowner that pictures must be taken at time of contractor insulation work when the wall is open to demonstrate that the wall structure is eligible for the R12 exemption. These photos are to be provided to the REA during the final assessment

Basement Insulation

\$1,000
For adding at least R23 to 100% of basement

\$500
For adding at least R12 to 100% of basement

\$800
For adding at least R23 to 100% of crawl space wall

\$400
For adding at least R10 to 100% of crawl space wall

\$450
For adding R24 to 100% of floor above crawlspace

Min. 20% of total basement wall area upgraded
Rebates pro-rated based on the total area % upgraded

1 The rebate is pro-rated based on the percentage of wall area insulated and does not include walls between individual units. For a semi-detached, rebates are 75 per cent of the amounts shown.

2 When both a basement and crawl space are present, all applicable grants are pro-rated to a maximum of \$1,000 based on the total combined wall area of basement and crawl space. For example, if your total foundation area is 40% crawl space and 60% basement, and you add at least R23 to 100% of the crawl space area, but 0% of the basement area, then you would qualify for a \$320 rebate ($40\% \times \$800 = \320).

3 Can qualify for either crawl space wall or floor above crawl space rebate.

4 Insulate a minimum of 20 per cent of the total ceiling area. When the roof consists of more than one type and/or sections (i.e., any combination of attic, cathedral ceiling and flat roof), rebates are pro-rated based on the total ceiling area percentages upgraded. The rebate for any combination of attic, cathedral ceiling and flat roof cannot exceed \$500.

Furnace/Boiler

\$750
For replacing a

- less than 95% AFUE natural gas, furnace
- less than 90% natural gas, boiler

With a

- 95% or higher AFUE condensing natural gas, furnace.
- 90% or higher AFUE condensing natural gas, boiler.

Only applicable to Union Gas and Enbridge customers with existing natural gas furnace/boiler as main heating source

A combi or combo system CANNOT qualify for both the space heating boiler rebate and the domestic hot water rebate. It counts as ONE measure

Window/Door/Skylight

\$40
For each window, door or skylight replaced with ENERGY STAR qualified model.

\$40 rebate per rough opening. Bay window considered one rough opening

Air Sealing

\$150
Achieve 10% or more above base target

\$100
Achieve base target

Water Heater

\$200
Replace existing natural gas water heater with 0.80 EF or higher tank type ENERGY STAR® qualified natural gas water heater

\$200
Replace existing natural gas water heater with 0.90 EF or higher tankless type ENERGY STAR® qualified natural gas water heater

Maximum one water heater rebate per home

Assessment Rebate

\$550
Will be rebated to homeowner to help cover the cost of the two energy assessments. Must meet eligibility criteria

**BONUS
REBATE**

Customers who complete more than two measures also qualify for a \$250 bonus rebate for each additional measure installed up to a maximum of \$5,000 rebate!

Limited time offer. Maximum of 120 days between the first and second assessment allowed. Union Gas and Enbridge Program Expires Dec. 31, 2019. Rebates available on first come, first served basis. Rebate payment subject to availability of funds. Union Gas and Enbridge reserves the right to revise program without advance notice including rebate amounts and eligibility. Homeowner responsible for ensuring rebate eligibility, choosing eligible certified energy advisors, keeping invoices and meeting criteria and deadlines.
